CAREER DEVELOPMENT: 2022-23

This report provides a review of aggregate and specific employment data, as well as advanced degree information, for our 2022-2023 graduates. (For a review of Career Development activity and assessment information, see our corresponding Annual Report). The information is based on follow-up through December 2023 by survey, email, and texts, as well as information obtained through faculty and staff. We reached 100% of our graduates, but obtained post-graduation information for 82%.

This included:

- Communicating by email with all graduates who expressed need for job search assistance
- Contacting graduates who indicated that they were seeking employment, but did not specifically request assistance
- Contacting graduates who provided no post-graduation employment or graduate school information

BLANK ROWS IN MAJOR REPORTS

Many of the rows for some majors are missing information. Career Development was either unable to contact those graduates, or the graduates did not respond to our emails and text messages.

FIRST DESTINATION AFTER GRADUATION

After completing our alumni follow-up contact, we compiled 6-month information on our traditional graduates. Our knowledge rate was 83%; we did not receive responses from 82 graduates.

- 76% were *employed in* career-related positions [we call this “**Employed**”]
- 16% were *accepted to* advanced or additional degree programs [we call this “**School**”]
- 7% were taking **Gap Time** (often while applying/preparing for graduate school)
- 1% were **Seeking Employment**

(See details below, and graphs on page 4)
