

Wi-Fi Connectivity

(Android)

CONNECT TO CAP-CONNECT

Follow the steps below to configure Wi-Fi on your Android device.

-  Choose **CAP-Connect** from the list of available Wi-Fi networks.
-  Verify EAP Method is **PEAP**
-  Verify Phase 2 authentication is **MSCHAPv2**
-  CA Certificate – select **Trust on First Use** from menu.
-  Identity is your Capital username
 - Example: If your email address `jdoe@capital.edu`, your username is **'jdoe'**
-  Anonymous Identity is your **same Capital username**
-  Password is your Capital password – The same you use to sign into email, or other Single-Sign-On applications
-  Click **Connect**
-  If prompted, Click **Trust** on the security certificate pop-up.
-  Verify you're connected to CAP-Connect by going to your favorite website, <https://www.capital.edu/>

ANDROID SCREENS (EXAMPLES)

Screens may vary by device.
