PROGRAM OVERVIEW
Students in the Education program at Capital University acquire the knowledge, disposition, and skills that are essential to helping their future students learn and develop to their full potential. The professional education program begins in a student’s first year. During the sophomore year, students have the opportunity to work in actual classrooms in diverse school and community settings. You’ll observe and participate in instructional experiences and gain useful in-class perspectives. Capital’s teacher education graduates are caring, competent, and committed educators who use theory and reflection to work, lead, teach, and serve diverse communities of learners.

The School of Education faculty is one of the most diverse faculty in the Central Ohio area. The faculty have expertise in their content area as previous educators, principals, and district administrators. Faculty have published books and peer-reviewed articles, presenting their research not just locally but nationally and internationally in countries such as Australia, Brazil, Korea, and Tanzania. Student teachers have the distinct opportunity of completing the Intercultural Student Teaching Program studying abroad in over 18 countries including a Navajo Reservation. While completing clinical and field experiences, students in the School of Education may be placed in over 15 school districts in Franklin County and surrounding counties. Whether tutoring students one on one in schools or at the Capital University Reading Center, or student teaching, our candidates have an opportunity to impact the educational experience of hundreds of preK-12 students while enrolled in our educator preparation

EXPERIENTIAL LEARNING
Students majoring in education at Capital begin preparing early in their studies to be classroom teachers through a combination of on-campus classes and clinical and field-based experiences. Many opportunities are available through organizations such as the Capital University Education Society (CUES), The Council for Exception Children (CEC), Pi Lambda Theta, and the Capital University Reading Center.

AS A GRADUATE, YOU WILL BE PREPARED TO:
• Exhibit thorough content knowledge and pedagogical content knowledge
• Demonstrate and apply knowledge of diversity in learners, learning and assessment
• Demonstrate and implement knowledge of curriculum and general pedagogy to impact student learning
• Participate in collaboration, employ effective communication, and create an ongoing educational environment
• Evidence the professional dispositions, ethics and responsibilities of a teacher

WHAT ARE OUR GRADS DOING NOW?
• Special Education Teacher
• Classroom Teacher
• Principal
• Superintendent
• College Faculty
• College Administrator
• College Professor
LICENSURE OPTIONS
Under the state of Ohio’s teacher education licensure standards, each student who completes the teacher education program at Capital and passes required Ohio Assessment for Educators exams will receive a four-year educator license from the state. Students already possessing a degree in an area other than teacher education may pursue licensure through Capital’s program. Licensure programs available through Capital are listed below. It is possible to obtain more than one licensure.
