Honors Experience
Learning Portfolio

The Learning Portfolio is the record of your learning experience, consisting of a narrative, describing the experience, and documentation of your learning (notes, documents, pictures, professional correspondence, etc.). The purpose of the Learning Portfolio is to memorialize your learning experience. Portfolios range in size from 10 pages up to 25 or so (not including documentation).

I. Introduction

II. Narrative/reflection:

- The content of the learning experience: What have you learned about the subject?

- The context of the learning experience: How does your learning fit into the larger context of your life, your future? Share your thoughts on how what you learned is important (or not important) to you, how you see your knowledge helping you to succeed in whatever you see yourself doing in near future.

- The learning process: What have you learned about how you learn (or how you can learn) more effectively? What did you learn about yourself as a learner? What was hard? What was easy? Did anything surprise you? What were the most exciting moments on this experience?

III. Conclusion

IV. Documentation
